## SUMMARY

I am a skilled software developer with 2 years of experience in a wide range of technologies. Proficient in ReactJS, NodeJS, Flutter, Solidity, MERN stack, Next JS, Nest JS, Prisma, SQL, Firebase, and AWS, I have a strong background in various aspects of software development. With expertise in front-end and back-end development, mobile app development, database management, and cloud technologies, I bring a versatile skill set to the table. I hold a Bachelor of Technology degree, providing a solid foundation to complement my practical skills. Committed to staying updated with the latest industry trends, I am dedicated to delivering high-quality solutions and driving innovation.

## TECHNICAL SKILLS

**Languages:** C++, Java, Dart, Python, Javascript, Typescript

**Framework:** ReactJS, NextJS, ExpressJS, NestJS, Flutter

**Blockchain and Database Management:** Solidity, MongoDB, Firebase, MySQL, PostgreSQ, Prisma

**Software:** VS Code, Miro, Jira, Clickup, Adobe Illustrator

**Miscellaneous:** DSA, Docker, Git, AWS, Wordpress

## EXPERIENCE

### Rejolut : Software Development Engineer

July 2021 – July 2023

- **Blockchain based ecommerce app :** The application was built using ReactJS, NodeJS, and Solidity, and integrated with Strato blockchain platform. This project showcased my skills in developing secure and transparent ecommerce marketplaces, leveraging blockchain technology for enhanced trust and accountability. With a strong emphasis on product traceability, the application aimed to provide a seamless and trustworthy shopping experience. Additionally, I implemented a comprehensive testing suite to ensure the robustness and reliability of the application.
- **SIKI - NFT music streaming App:** Developed Siki, a multimedia platform that utilizes crypto/NFT technology to empower artists and curators in monetizing their streams. Built with Flutter, the app's frontend offers a seamless user experience. Integrating blockchain-based APIs ensures enhanced security and transparency. Siki paves the way for the future of digital monetization, connecting artists with their audience and helping them sustain their careers.

### Knockmydoors : Flutter Developer

May 2021 – July 2021

- Developed a high-performing mobile application using **Flutter and Dart** that delivered a user experience and functionality comparable to that of the Urban Company application.
- Implemented **Firebase** for seamless authentication, ensuring secure access and personalized user accounts within the mobile application.

## EDUCATION

### Bachelor of Technology

June 2023

Computer Science and Engineering

8.55 CGPA

Jaipur Engineering College and Research Centre

## ACADEMIC PROJECTS

### Influish

July 2022 – Feb 2023

- Developed Influish platform using **Flutter, NodeJS, MongoDB, Firebase, and NextJS** ensuring exceptional performance and seamless integration across multiple platforms.
- Led the documentation, design, and planning phases, establishing a solid foundation for the project and enabling efficient development with minimal errors.
- Mentored and empowered interns, conducting interviews, guiding their growth, and fostering a collaborative environment. Orchestrated the hiring process, bringing in highly talented individuals with fresh perspectives.
